

**CPT6314 Final Year Project (FYP) 1 Meeting Log
Trimester OCT / NOV 2025 (Trimester ID:2530)**

Meeting Date: 16-12-2025	Meeting No.: 3
Meeting Mode: Face-to-Face	
Project ID: 860	Project Type: Research-based
Project Title : Autonomous Driving Agent Training Using Deep Reinforcement Learning in CARLA Simulator	
Student ID : 242UC243LS	Student Name: NG JUN XUAN
Student Programme and Specialisation: Data Science	
Supervisor Name: Dr. Mohammad Shadab Khan	Co-Supervisor Name: (if applicable)
Collaborating Company: (if applicable)	Company Supervisor Name: (if applicable)

--

1. WORK DONE

Tasks: Background Study or Literature Review / Design or Research Methodology

Details (in point form):

- Done data extraction and full text screening.
- Based on the extracted data, we categorize and summarize the specific implementation methods, input features, and performance impact of different Transformer variants (such as Vision Transformer, Swin Transformer, etc.) in RL policy networks.
- Confirm the literature review content.
- Done literature review 2.2 Specific Applications of Transformer-RL in Autonomous Driving

2. WORK TO BE DONE

Tasks: Background Study or Literature Review / Requirement Analysis or Theoretical Framework

Details (in point form):

- **2.3 Comparative Applications of RL Algorithms in Autonomous Driving Decision-Making**

- **2.4 Definition and Research of High-Risk Autonomous Driving Scenarios**

3. PROBLEMS ENCOUNTERED AND SOLUTIONS

Problem:

When compiling information on Transformer-RL applications, it was found that different papers used inconsistent metrics to evaluate agent performance, making it difficult to directly compare the merits of different models.

Solution:

The plan is to establish a unified comparison dimension table in the report, selecting the most common metrics (such as success rate, average takeover distance, and collision rate) for normalized description, and adding qualitative analysis when direct comparison is not possible.

4. COMMENTS (Supervisor / Co-Supervisor / Company Supervisor)

Satisfactory progress, research is in progress with LR.

DR. MOHAMMAD SHADAB KHAN
Assistant Professor
Faculty of Computing and Informatics
Multimedia University
Persiaran Multimedia, 63100 Cyberjaya
Selangor Darul Ehsan, Malaysia

Supervisor's Signature

Student's Signature

Co-Supervisor's Signature
(if applicable)

Company Supervisor's Signature
(if applicable)

IMPORTANT NOTES TO STUDENTS:

1. Items 1 – 3 are to be completed by the students prior to the meeting. Item 4 is to be completed by the supervisor / co-supervisor / company supervisor.
2. Student has to upload the soft copies of the meeting logs in eBwise and also attach them along with interim (FYP1) report.
Minimum requirement is SIX Meeting Logs (Period: Week 3 to Week 12). Students can have fortnightly meetings with the supervisor.
3. Log sheets provide the basis for evaluating the General Effort (Project Management, Attitude, and Technical Competency) of the student, by the supervisor and also for checking the attendance requirement of the student, by the FYP Committee.

This also provide the student with feedback from the supervisor / co-supervisor / company supervisor on the tasks done and provide the plan for the upcoming tasks. This can provide the motivation for the student to give consistent and efficient effort throughout the period of FYP.

4. Student who fails to meet the minimum requirement (six nos.) of log sheets will not be allowed to submit FYP report.
